**LISTEN TO THE SINGLE HERE** (private link not for public posting):

*Here's a telling taster of what to expect from CARPETFACE on his forthcoming "COGNITIVE DISS" album due out July, which also features music from UGLY DUCKLING's YOUNG EINSTEIN and guest vocals from legendary RHYME SYNDICATE founder-member DONALD D. - original fresh hiphop with a classic feel to make heads nod for 3 reasons - conscious informed lyrics, infectious hooks and sick sick beats.*

**A) DON'T GET IT TWISTED ( Original Mix) prod. CARPETFACE**

*A downtempo, dark and moody track focusing on the themes of deception / propaganda / corruption, misconceptions about governmental control, individual sovereignty and knowing one's rights - A no-holds-barred, smouldering rant neatly sandwiched in between 2 big baritone chorus hooks with haunting harmonies imploring the listener not to succumb to fake news.*

**B) DON'T GET IT TWISTED (Spikey D&B Remix) prod. PHILLY THE KID (URBAN WARFARE CREW)**

*Exactly the type of authenticy gnarly underground sound to expect from longstanding D&B veterans Urban Warfare Crew, with dancefloor friendly buildups, dirty drops and filthy synth bass hits galore.*

*2 more remixes of this track are also in the pipeline for release in Feb – one on more of a Jungle/Drumstep tip from URBAN WARFARE CREW's DJ SWEETLEAF and another dark downtempo Hiphop version remixed by French producer DJAR ONE courtesy of Beats House Records.*
